

## Certificate of Achievement

# Noel Leon Kronenberg

has completed the following course:

### ORIENTATION TO EDUCATIONAL NEUROSCIENCE CENTRAL QUEENSLAND UNIVERSITY

In this course, learners will gain contemporary insights into the brain that will inform their professional practice and underpin the development of optimal learning experiences. Underpinned by Dr Louis Cozolino's research concerning the evolution of the social brain and 'Nine things educators need

2 weeks, 2 hours per week

*Ken Purnell*

Ken Purnell  
Professor/HOC Grad Cert Brain Based Educ  
Central Queensland University

*Monique White*

Monique White  
Educational Developer  
Central Queensland University

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit [futurelearn.com/proof-of-learning/certificate-of-achievement](https://futurelearn.com/proof-of-learning/certificate-of-achievement).

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

## Noel Leon Kronenberg

has completed the following course:

### **ORIENTATION TO EDUCATIONAL NEUROSCIENCE** **CENTRAL QUEENSLAND UNIVERSITY**

**96%**  
AVERAGE TEST  
SCORE

In this course, learners will gain contemporary insights into the brain that will inform their professional practice and underpin the development of optimal learning experiences. Underpinned by Dr Louis Cozolino's research concerning the evolution of the social brain and 'Nine things educators need

#### **STUDY REQUIREMENT**

2 weeks, 2 hours per week

#### **LEARNING OUTCOMES**

- Explore important understandings and concepts about the brain
- Reflect on the significance of compromised learning environments on the social brain and the implication for learning and memory
- Demonstrate knowledge of introductory educational neuroscience findings

#### **SYLLABUS**

- The brain's evolution as a social organ
- Social-emotional learning in the classroom
- The mind-body link and its implications for learning and memory
- Growth mindset as a neural process for maximising learning
